On 12/27/71, RUDY WEBER, former Special Agent of the FBI, and currently Manager of Security for Vons Grocery Company, 10150 Lower Azusa Road, El Monte, California, advised [redacted] of the Southern California Grocers Association (SCGA), would consider printing the list of ransom money in the "Grocer's Journal", a monthly publication of the SCGA, distributed to most large grocers in Southern California.

On 12/28/71, [redacted] was contacted and advised he was very willing to print such a list in the "Grocer's Journal", and stated the next issue is to be published 1/10/72.

Mr. WEBER has advised that [redacted] Bay Area Grocers Association, Inc., 4170 Piedmont Street, Oakland, California, telephone [redacted] could also be contacted regarding the possibility of having the list printed in the San Francisco Bay Area trade magazine.

In addition, he furnished the following names and addresses of similar magazines distributed widely in the U.S. which might also be considered for such dissemination:

Reference is made to telephone call from SA ELGIN E. OLRGG 12/30/71, in which he said that permission had been denied by Air Force to use Air Force volunteers in a life parachute drop but that they had authorized assistance in connection with the dummy drop.

Reference also made to Springfield teletype 12/30/71 in which they pointed out that the Military Air Life Command at Scott Field had given a favorable reply to the request from McChord Air Force Base, but believed that the first test should be conducted with a 200-lb. dummy.

I called OLRGG and told him that it did not appear from the wording of Springfield teletype that McChord was precluded from furnishing live volunteers. He said apparently there was a question of interpretation but that the man he talked to in McChord was pretty firm that they were not going to furnish any live ~~people~~. He said, however, that he would continue contact with McChord to get the final word.

I sent a teletype to Minneapolis and told them to advise [] immediately that it would appear the only clearance we had so far from the Air Force was to supply personnel to assist in a dummy drop and not a live parachute jump.

Re [REDACTED]

Re memo SA THOMAS J. MANNING, 12/1/71.

The following following investigation was conducted by

SA [REDACTED]

AT [REDACTED] WASHINGTON

On December 6, 1971, [REDACTED] Cowlitz County Sheriff's Office, advised that in the early morning hours of December 1, 1971, he stopped a vehicle driven by [REDACTED] on I 5 north of Kalama, Washington. [REDACTED] stated that [REDACTED] initially refused to allow him to search his car; however, after being advised that the purpose of the search was to locate a stack of \$20 bills alleged to be in his vehicle, [REDACTED] gave permission for the search. [REDACTED] advised that his search of the vehicle revealed only a paper sack containing a six pack of beer on the floor in the front seat of the car. [REDACTED] further advised that attempt to recontact [REDACTED] the person who called the Cowlitz County Sheriff's Office, and alleged that [REDACTED] car contained a sack of \$20 bills proved negative. Investigation by the Sheriff's Office revealed that [REDACTED] did not in fact live at the address he gave.

On December 13, 1971, [REDACTED] Washington, was contacted by the writer of this memo, and provided the following information:

[REDACTED] advised that in the early morning hours of December 1, 1971, he picked up a hitchhiker on I 5

SUB- FLIGHT +
 INSURANCE

Re Portland teletype to Omaha and Seattle, 12/8/71.

Enclosed for Seattle are 38 copies of applications for insurance which were obtained at the Portland International Airport (PIA).

Northwest Airlines, PIA, advised on 12/9/71, that about 126 flights leave PIA each day.

The enclosed insurance applications do not indicate a flight number or the name of the airline, and it is not possible to determine from the application itself what flight the passenger took.

Portland will check the applications of those individuals residing in the Portland ^{TERRITORY} area through the current directories to determine their occupation and verify addresses shown on the applications.

If additional investigation of the applicants is believed warranted, Seattle will advise Portland.

APPLICATION RETAINED BY MACHINE

The Principal Sum of this policy is that amount which the premium stamped on the above application will purchase in accordance with the Rate Schedule on the reverse side. The policy requires advance ticketing for designated round trip (except shuttle or in-flight ticketing) before leaving Point of Departure as specified in Part A.

The Maximum Principal Sum for which this policy may be issued is \$75,000. In the event that the premium stamped on the application is greater than the applicable premium specified in the Rate Schedule for said maximum Principal Sum, the excess premium will be returned upon demand.

This insurance is binding only if the application has been completed and personally signed by the Insured and has been stamped by the Telc-Trip validator machine.

After reading about the skyjacking and seeing a sketch of the suspect I think I have a good lead for the authorities. My suspicions are based on the following:

He resembles the sketch.

He knows a lot about planes.

He has done a lot of sky diving.

He would have the nerve to do it.

He has served time at Monroe.

He has lots of connections everywhere.

I don't even know his last name, but he is [] and when I knew him he worked at the [] and lived in North Bend in his trailer. That was about five years ago. I think he worked at the [] in Seattle since that time.

At 8:55 AM, 12/23/71, SAC HELD called from Minneapolis. He advised he had been talking to [redacted] and that arrangements were made for the same 727 to be available to make the simulated flight on 12/27/71.

b6
b7C

He suggested that agents actually ride on the plane. He advised that [redacted] had told them he did not want a man to actually make the parachute jump but that we could simulate the conditions by dropping a package of similar weight.

b6
b7C

Thereafter [redacted] Northwest Airlines, called and advised that he was going to come to Seattle on the evening of 12/26/71 and would be at the Sea-Tac Motor Inn at 8:00 AM on 12/27/71. I told him we would bring all of the maps and material that we had which has a bearing on this so that we can decide how the flight will take place.

b6
b7C

He advised that the airplane would be available for the flight around 4:30 PM. He asked that we make the arrangements for the dummy and the actual drop itself. He will make all the arrangements for the airplane.

[redacted] told me, contrary to our earlier belief, that the crew told him that they could see the lights of Portland and other distinctive lights in that area, so given knowledge of the specific area the hijacker could very easily have made a jump to a specific location.

The following is a summary of investigation conducted by Portland Division in this matter:

AT PORTLAND INTERNATIONAL AIRPORT (PIA):

On the evening of November 24, 1971, beginning while the hijacking was in progress, Portland Agents interviewed airport, airlines and security personnel, taxicab and bus drivers, gift shop, insurance stands, car storage lot, car rental agency, coffee shop, cocktail lounge and dining room personnel in an effort to identify the unknown subject or develop background information. All interviews were negative except those with the Northwest Airlines ticket agent who sold unknown subject the ticket and the Boarding Gate Clerk, interviews of whom are reported separately.

SEARCH OF ROUTE FLOWN BY FLIGHT 305

On November 25, 1971, a low-altitude air search pattern was flown in a fixed-wing light aircraft at slow speed by SA [redacted] accompanied by [redacted] West Linn Police Department, West Linn, Oregon, who is [redacted]

b6
b7C

[redacted] This search covered an area of Clark County, Washington, from airway Victor 23 on the west to approximately eight miles east of Victor 23, and from Lake Merwin on the north to the city of Vancouver on the south. Nothing pertinent to this investigation was observed.

On November 29, 1971, that portion of the route flown by Flight 305 from Portland, Oregon to Eugene, Oregon was air-searched by two fixed-wing light aircraft flown by SAs [redacted] respectively, with SAs [redacted] respectively, as observers.

b6
b7C

On the same date, two Army National Guard jet helicopters also flew this search route. Each helicopter bore three crewmen. SAs [redacted] observed from one helicopter, and SAs [redacted] observed

from the other. The entire search was conducted with negative results.

On November 30, 1971, SA [] air-searched the portion of the hijack route from Eugene, Oregon to the Grants Pass, Oregon area in a fixed-wing light aircraft piloted by [] Eugene. On the same date, the route from the Grants Pass area south to the Oregon-California border was flown by SA [] in a light fixed-wing aircraft operated by Federal Aviation Administration (FAA) personnel.

b6
b7C

In addition, arrangements were made on November 30, 1971 with [] respectively, of Bonneville Power Administration, Department of the Interior, and the U.S. Forest Service, Department of Agriculture, to instruct the fixed-wing and helicopter pilots of both services flying along the hijack route in this matter to be alert for anything relating to the hijacker.

b6
b7C

On November 30, 1971, [] Portland Flight Service Station, FAA, caused an examination and verification of the log of pre-flight weather briefings given to general aviation pilots who contacted this station on November 24, 1971, and advised that all such contacts appeared to be legitimate, resulting in no suggested suspects in this matter.

b6
b7C

Subsequent to the availability of the composite artist's conception sketches in this matter, persons in logical capacities at Portland International Airport were recontacted and shown the sketches, with negative results.

Date

[redacted] Northwest Orient Airlines was interviewed by SA [redacted] and SA [redacted] and furnished the following information.

b6
b7C

At approximately 2:00 p.m., November 24, 1971, a white male came up to him in regular rotation in a long line of customers and said something to the effect, "Can I get on your flight to Seattle?" [redacted] noticed no nervousness or fidgeting. [redacted] asked if he wanted one way coach and he said "Yes." The white male paid with a \$20 bill, probably using his right hand in paying for the fare. The source of money from his pockets was not noted. When asked his name the white male said "COOPER, DAN COOPER". When asked if he had baggage, he said "No." It was not noticed whether or not he was carrying anything. After receiving instructions to flight area, the white male departed from the ticket counter area, his direction was unnoticed. [redacted] said he has never seen the male since.

b6
b7C

The white male was described as follows:

Race	White
Sex	Male
Nationality	American
Age	Mid 30's, possibly older
Height	5'10" or 5'11"
Weight	180 pounds
Build	Medium
Characteristics	Soft voice, Not noted wearing glasses
Complexion	Slight, darker, possibly Olive
Hair	Dark, no gray noted
Clothing	Dark clothing, but only recalled what he believed to be a casual jacket, headwear was unnoticed
Overall impression	Laboring type man as opposed to office worker.

[redacted] was unsure if he would recognize the man again as this man was one of many he handled that day.

b6
b7C

The \$20 bill was co-mingled and unavailable.

Review of the file reflects Portland Division has conducted appropriate inquiry concerning captioned matter at Portland International Airport and at airports at Aurora and Donald, Oregon, in Marion County.

On the possibility that subject might have rented a plane and flown over the area of Southwest Washington or might have chartered a plane for the same purpose, the following investigation should be instituted throughout the remaining portion of the State of Oregon:

(1) Identify and contact each flying school for anyone fitting subject's description as having rented a plane during the pertinent period.

(2) Identify and contact all air fields which might have rented such an aircraft to anyone meeting subject's description.

(3) Identify and contact each skydiving school or club and determine if anyone meeting subject's description is known to them.

Re Skyjacker:

After reading several articles on this in the paper, I feel that the FBI have spent a lot of time tracking down suspects from skydiving and parachute clubs. I would like to suggest an alternative source of suspects. This being from P.O.W. airmen who have parachuted from aircraft, particularly World War II. Apparently the man is around 45-50, perhaps too old for sky-diving but the right age for World War II. Also once a person has jumped there is no fear of a second jump. I know this from personal experience. Further, I would suggest perhaps this man may have attempted one or more escapes from a P.O.W. camp. Obviously he has nerve and it would be unlikely that he would sit in a P.O.W. camp without attempting escape. It might be worth the effort to contact ex-P.O.W. organizations in Seattle, Vancouver, B.C., Portland and others.

There is one man who when I last heard from him he lived in Sumner, Wash. and worked for Rohr Aircraft several years ago

He fits all the above requirements that I suggested: Ex-P.O.W., World War II, bailed out, tried to escape at least twice. Age 49 or 50, height 5-10" or 5-11" about 170 lbs. I can't honestly say that he resembles the

photograph (composite) in the paper as he had a crew cut when I saw him about five years ago. Before enlisting in World War II he lived in Las Vegas, Nevada, [REDACTED]

b6

As mentioned previously, he may or may not resemble the composite photo. I have no information to suspect this man other than the above. This is strictly a long shot but I do feel that my approach is worth considering.

Result of examination:

Q23 through Q28 could not be associated with any of the specimens represented in the Anonymous Letter File. Copies of Q23 through Q28 have been added to this file for future reference.

No watermarks, indented writing or other features were found on Q23 through Q28 which would be of value in determining the source of these specimens. It could not be determined whether the paper on which the questioned letters were prepared originated from government stock.

The typewriting on Q23 through Q28 most closely matches Laboratory standard for a pica style of type used on Singer electric typewriters. Similar styles of pica type are found on Smith-Corona typewriters. T/11

It was not determined whether the Christmas stamps on Q23, Q25 and Q27 were originally attached, because of a lack of significant defects in the torn edges of these stamps.

Q24, Q26 and Q28 are carbon copies of the same original letter with the exception of the numbers at the bottom of each of these specimens. *Same letter*

He stated that on December 3, 1971 between the hours of 9:00 and 10:00 PM he was visiting [redacted] in Anchorage. While in his company [redacted] made a long distance telephone call to Houston, Texas. He does not recall the number called by [redacted]. After the telephone call [redacted] admitted that he had been talking to his father who was [redacted] in Texas. While [redacted] was on the phone he heard [redacted] repeat something that his father apparently had said relating to an individual who had parachuted out of an aircraft. When [redacted] finished his conversation with his father he asked [redacted] what was said. [redacted] reported to him that his father told him over the telephone that his uncle, [redacted] was the one who parachuted out of a plane that was hijacked. [redacted] did not supply the name of his uncle.

b6
b7C

[redacted] further remarked that his father was a [redacted] and that his uncle, name unknown, was a "junkie".

b6
b7C

[redacted] advised he had no other facts. He stated that [redacted] is presently "on the streets" and he knows of no way to locate him. He advised that he has seen some people who are acquainted with [redacted] and they report that [redacted] is not residing at [redacted] in Anchorage at this time. He further stated that he wrote a letter to [redacted] and that the letter was returned to him. This indicates that [redacted] is no longer residing there.

RE SUSPECT - [REDACTED]

E lim

Re memo of SA ELGIN E. OLROGG, 12-1-71.

The following investigation was conducted by
Special Agents [REDACTED]
on December 29, 1971:

[REDACTED]
Seattle, Washington, was interviewed at [REDACTED]
Everett, Washington. [REDACTED] indicated that the
date of the hijacking of the Northwest Airlines 727
was easy to recall. He and [REDACTED] were together
at the Jet Deck Restaurant at the Snohomish County Airport
at the time the hijacked plane was on its way to Seattle.
He added that the two of them discussed the hijacking
with [REDACTED] Paine Field, and

[REDACTED] Jet Deck Restaurant. [REDACTED]
[REDACTED] indicated that either [REDACTED]
[REDACTED] could substantiate the fact that he was at the
Jet Deck Restaurant at the time the hijacking was in
progress.

[REDACTED]
Lynnwood, Washington, was with [REDACTED] at the time he
was interviewed by Special Agents [REDACTED]
She verified that she and [REDACTED] were together on
November 24, 1971, and that they were at the Jet Deck
Restaurant at the time the hijacking was occurring.

SUBJECT: NORJAK

DATE: 1/4/72

Sub A A

EARL JAY COSSEY, 349 N. 101st, SU 3-0475, the individual who packed the original parachutes used by the hijacker, was contacted 1/4/72, at which time he advised he had made over 2,500 parachute jumps, and has 10 years experience. He is a Master Parachute Rigger and has trained 1,000 other individuals in parachuting. He has a "D" rating as an expert parachutist with the American Association of Parachutists with "Diamond Wings Award".

He is a pilot with 350 flight hours and has flown as large a plane as co-pilot with Lockheed Lodestar, a two engine plane. He was born 8/30/38 at Oakley, Utah. He has a college degree in Psychology from Weber State College, Logan, Utah, in 1966. He is now studying for his Masters Degree at the University of Washington and has his own parachute jumping equipment. He is a WMA, 5'7", 160 lbs., and when dressed for a jump such as this would weigh over 200 lbs., and probably about 220, which is comparable to the weight of the hijacker, with the money.

Specimens received 12/21/71

- Q29 Envelope postmarked "U. S. POSTAL SERVICE 970 AM 14 DEC 1971," bearing hand printed address "PORTLAND NEWSPAPER HEAD NEWS PAPER OFFICE PORTLAND "OREGONIAN" 1320 S.W. BROADWAY PORTLAND, OREGON"
- Q30 Accompanying one-page typewritten letter beginning "Dear Editor: To the Public: I must ask you . . ." and ending "Sincerely, S. W. L. Alias, David Bartholomew Copperhead"
- Q31 Large metal-clasp envelope postmarked "U. S. POSTAL SERVICE 970 DEC 14 AM" bearing hand printed address "FEDERAL BUREAU OF INVESTIGATION UNITED STATES COURTHOUSE PORTLAND, OREGON."
- Q32 Accompanying two-page letter bearing cutout message beginning "Yabba dabba doo! I've won . . ." and ending ". . . public announcement within 48 hrs"

Result of examination:

The typewriting on Q30 most closely matches a style of type manufactured by Brother Industries, Ltd., Nagoya, Japan. This style of type is used on typewriters sold under different brand names, some of which are Brother, Signature and Webster.

On December 14, 1971, "The Washington Post" newspaper, 1515 L Street, N.W., Washington, D.C. (WDC), received a blue carbon copy of a letter purportedly from one "D. B. COOPER". The letter was not dated, was typed, and bore no handwriting. The envelope containing letter was postmarked "11 Dec. 1971, U.S. Postal Service WA 980".

The letter concerned the recent hijacking of a Northwest Orient aircraft.

Northwest Airlines,
c/o Seattle-Tacoma International Airport,
Seattle,
Washington, U.S.A.

Attention: Airport Terminal Manager

Dear Sir:

I am attaching a clipping from TIME magazine (Dec. 6/71) describing Flight 305 which was noteworthy in every sense, but additionally one item aroused my curiosity and for this reason:

I am interested in making contact with [redacted] who was a passenger and is quoted as stated in the attached report. He could very well be a resident of either Tacoma or Seattle or elsewhere for that matter.

b6
b7C

The reason for my unusual interest is that I could very well be a cousin of this man. A [redacted] moved from Prince Edward Island, Canada, to the Tacoma-Seattle area a long time ago and raised a family. If I remember correctly, he had a son John who would be an older man now if still alive. My thought was that this [redacted] could be a grandson of the original man. My family lost contact with these people through the years and have never met them--that is, the younger generations.

b6
b7C

Would it be possible from your files or otherwise to make contact with this [redacted] and determine if he perchance is a member of the family I have described and pass this letter along to him.

b6
b7C

I would be pleased to hear from this man if indeed he is by coincidence a member of the [redacted] family I have described.

b6
b7C

In any event, may I express my thanks for any anticipated trouble this may cause, for I fully realize it is a most unusual request.

Yours very truly,

The Bandit Who Went Out into the Cold

Northwest Airlines Flight 305 began as the most prosaic of milk runs. It started in Washington, D.C., at 8:30 a.m. last Wednesday, with scheduled stops at Minneapolis, Great Falls and Missoula, Mont., Portland, Spokane and finally Seattle. What happened en route rivaled Alfred Hitchcock's more baroque fantasies. In the most elaborate sky-jacking ploy in the bizarre history of air piracy, an inconspicuous middle-aged traveler identified on the manifest as "D.B. Cooper" extorted \$200,000 from the airline, and apparently foiled any plan of capture by parachuting to safety over southwest Washington State.

Whoever the latest air pirate is, he obviously had conceived his plan with a lapidary's attention to detail. Wearing dark glasses and a plain business suit, he boarded the Boeing 727 in Portland and took a seat at the rear. He did nothing to distinguish himself from the other 36 passengers aboard—until he gave a stewardess a note stating his demands. "I thought he was trying to hustle me," said the stewardess, Florence Schaffner. "I stuffed the note in my purse, and he motioned that I should take it out and read it." He wanted, upon arrival at Seattle-Tacoma International Airport, the sum of \$200,000 and four parachutes. Recalls Passenger Richard Simmons: "I saw one stewardess answer a call, and her face dropped. She looked bewildered and gulped. I guess she learned what was happening then."

She certainly did. The hijacker showed her a briefcase that contained two red cylinders and a tangle of wire. He told her calmly that unless his demands were met he intended to

blow up the airplane. She immediately relayed the demands to Captain William W. Scott, who in turn radioed Seattle ground control. Northwest President Donald W. Nyrop quickly issued orders to cooperate fully with the hijacker and "do whatever he demands." Airline officials were dispatched to round up the money, and a call went out for the four parachutes.

The 727 circled the Seattle airport until the hijacker was satisfied that the money and parachutes were ready. The plane then touched down at 5:40 p.m. Said Pilot Scott to the men in the control tower: "We will ask you to stay there until we get coordinated with our friend in the back."

Getting Antsy. Says Passenger Barbara Simmons: "It was really strange. When the plane landed, we sat there for 15 minutes, and nobody talked." As soon as the money and parachutes were brought aboard, the hijacker allowed the passengers and two of the stewardesses to disembark; however, he demanded that one of the girls, Tina Mucklow, remain on board as a hostage. The hijacker asked to be flown to Mexico. The crew explained that such a flight was out of their ship's range. At one point the impatient captain told the tower: "This guy is getting antsy." To underscore the point, the hijacker interrupted an attempt by a Federal Aviation Administration official to board the plane by snapping: "Let's get this show on the road!"

With the hijacker's agreement, the plane ultimately took off for Reno, ostensibly a refueling stop en route to Mexico. Yet it is clear that the hijacker knew precisely what he was about. He ordered the plane to be flown at less than 10,000 ft. and at 200 m.p.h., an extremely slow cruising speed. He also ordered the rear door to be left unlocked. Of all U.S. commercial airliners, only the 727 has a door beneath the tail that would permit a reasonably safe parachute jump. Then he locked Miss Mucklow in the forward cabin with the crew, and was not seen again. Five planes trailed the jet from Seattle, but no one saw the hijacker jump. If he fell free in the dark for more than a few hundred feet, however, he would have been almost impossible to spot.

Four-State Manhunt. FBI officials estimate that he dropped into an open area in the wilderness some 35 miles north of Portland. The location was determined by the time of his jump, which probably occurred when a red light went on in the cockpit, indicating a drop in cabin pressure. The hijacker must have opened the rear door at that point.

A four-state manhunt was immediately launched. FBI agents, along with more than 30 officers of the Clark and Cowlitz county sheriff's departments, set up a command post and fanned out through a thickly timbered corridor 15 miles long and ten miles wide near the towns of Longview and Ariel in southwest Washington. The area is densely

forested enough to present a serious hazard to the jumper if he did not make the clearing. Said Undersheriff Tom McDowell: "We're either looking for a parachute or a hole in the ground."

The 3rd Armored Cavalry joined the search from the air, sending out two helicopters. But the hijacker also managed to pick ideally inclement weather to cover his escape. Sullen clouds rolled in from the Pacific, grounding the choppers until a couple of hours before darkness. By week's end officers were scratching their heads and wondering where to look next for the dapper, audacious fellow with \$200,000 to spend.

Romney on Forest Hills

In white, middle-income Forest Hills, N.Y., last week angry crowds booed the bulldozers that were breaking ground for a proposed low-income housing project that would bring numbers of blacks into the area (TIME, Nov. 29). One resident, Mrs. Ann Schachter, mother of two small schoolchildren, admits that she is embarrassed by the pickets. Still, she adds, typically enough: "I like to think of myself as a liberal, but the term doesn't seem to apply to me any more. I'm frightened." Rabbi Ben Zion Bokser, who favors the project, says of the protesters: "They are afraid of what they see as these hostile forces breaking into their island."

Mayor John Lindsay's associates proclaimed that the project would proceed, but there were signs of queasiness at City Hall; last week the Board of Estimate turned down a similar proposal for Lindenwood, another section of Queens. Also last week, despite a personal appeal from New York's Republican-Conservative Senator James Buckley, Housing and Urban Development Secretary George Romney gave the

Re: UNIDENTIFIED WITNESS FURNISHED INFORMATION
REGARDING CENTURY SKYDIVING TEAM

On 12/31/71 an unidentified white male telephonically contacted SA [redacted] at the Portland FBI Office and desired to know if the FBI is still looking for COOPER, hijacker of the Northwest Airlines aircraft. The caller stated the FBI should attempt to contact [redacted] of the "Century Skydiving Team," which at one time operated at the Wholes Airport, Vancouver, Washington. The caller indicated these individuals would have information concerning a person who performed with this team. The caller stated the above persons could furnish the description of the hijacker and they would know the identity of the hijacker.

This individual was asked how he knew this and he stated he knew and once the unknown subject had been identified and apprehended his revenge would be complete. He indicated he knew the identity of the person who could be responsible for the hijacking.

The caller was very incoherent during most of the conversation and stated at the conclusion of the call, "When you get the hijacker, tell him it was [redacted] who turned him in to the FBI." The caller then laughed and hung up.

DAILY SUMMARY

PARACHUTE FOUND AT PORTLAND WAS RECEIVED AT SEATTLE JANUARY SIX, NINETEEN SEVENTY-TWO AND EXAMINED BY EARL COSSEY, WHO PACKED ALL THE CHUTES GIVEN TO THE HIJACKER AND COSSEY DEFINITELY ELIMINATED THIS PARACHUTE AS ONE GIVEN TO THE HIJACKER.

EXPERIMENTAL FLIGHT WAS MADE TODAY USING THE SAME NORTHWEST AIRLINES AIRCRAFT AS HIJACKED, DURING WHICH TWO SLEDs, MADE TO SOMEWHAT APPROXIMATE THE SIZE OF A MAN AND WEIGHING APPROXIMATELY TWO HUNDRED ^{thirty five} LBS., WERE DROPPED OVER PACIFIC OCEAN. THE EFFECT OF THESE DUMMIES DEFINITELY RECORDED A CABIN PRESSURE CHANGE AND, ACCORDING TO OF THE HIJACKED AIRCRAFT, THE REACTION TODAY WAS IDENTICAL TO THAT WHICH OCCURRED DURING THE HIJACKING.

Dear Sir;

A couple of weeks ago I wrote a letter to the Chief of Police; Woodland, Washington. I requested some information on the hijacking story that recently brought attention to that area. The newspapers, here in the bay area have quit writing about the event.

Joe May, Woodland's Chief of Police, told me that they can't comment on any case which is in the hands of another agency. He suggested that I write to the F.B.I. office in Longview if I was still interested in the case.

As you can see, I am still interested. I'm hoping I can learn more about the hijacker case through your office. Are you still searching for him, or has it been called off?

I read in the San Francisco Chronicle where some people claimed to have seen a small plane near [redacted] the same night. Did this have any connection with the hijacker?

Thank you for anything you may be able to send me in connection with this unusual hijacking event.

Sincerely,

Your letter of December 24, 1971, addressed to the Federal Bureau of Investigation at Longview, Washington, has been referred to the Seattle Office.

For your information, the FBI has not yet identified or located the hijacker and investigation is therefore continuing.

As you might realize, the FBI is anxious to keep the public informed of any significant developments in this matter and when the hijacker is located, the newspapers will be promptly informed.

[REDACTED] received the impression from the three that they had "picked up" the young girl and that she was accompanying them to Reno, Nevada on short notice.

During the period that the bus was leaving Portland, Oregon, the third individual made a crack about "get the parachutes ready" and called his other male companion,

[REDACTED] at which point the person referred to as [REDACTED] got rather upset and told him not to use that name. From then on the third individual referred to the first individual as [REDACTED]. The first individual called the third individual [REDACTED]

During the trip to Reno, Nevada, from Portland, the third individual, referred to as [REDACTED] showed [REDACTED] identification which he took from his brief case, identifying him as [REDACTED] last name believed to be [REDACTED] by [REDACTED].

b6
b7C

The identification which he showed was a [REDACTED] driver's license and also some type of card which [REDACTED] thought to be a [REDACTED]

[REDACTED] The third individual, [REDACTED] told [REDACTED] that this was a [REDACTED]

[REDACTED] at any time he wished to with no problems attached. At approximately this point, [REDACTED] became aware that the third individual with whom he was

talking, looked very much like the composite photograph which he, [] had seen in the Everett Herald resembling the hijacker of the Northwest Orient 727.

b6
b7C

[] spent approximately 16 hours with the three individuals and had numerous conversations with them enroute to Reno, Nevada. He stated that he was quite suspicious of the third suspect and that at one point his suspicions evidently showed because the third suspect became concerned about [] and had a conversation with the first suspect, in which [] knew he was being discussed.

b6
b7C

The first suspect, [] also known as [] talked about his home town, Chicago, and also about the State of Wisconsin. They also had conversation about a [] [] which they had abandoned in Seattle when they decided to leave there suddenly.

b6
b7C

At another point the first suspect warned the third suspect that they would have to go through a food and produce checking station at the California-Nevada border. The above three suspects then had some conversation over this, which was not heard by []

b6
b7C

When the bus arrived at Reno, Nevada, the third suspect using the name of [] asked [] to accompany the three of them to a restaurant for dinner and also a little gambling. They went to a restaurant and alley, which had carpet on the alley floor, and there had some dinner at a small restaurant. The individual referred to as [] and [] then went to Harrods Club where [] did some gambling. He played black jack and "21" and [] stated that he lost approximately [] all of which was in []. He appeared at this time to [] to be somewhat of a compulsive gambler, as he became very agitated while in the process of gambling. At this point [] slipped away from the third suspect referred to as []

b6
b7C

Before leaving Reno, [] related all of the above [] and also the [] [] On one other occasion, [] ran into the above third suspect and second suspect leaving the

[redacted] at that point felt that the individual referred to as [redacted] looked very much like the composite of D. B. COOPER, which he had observed in newspapers after the hijacking.

b6
b7C

[redacted] stated that he feels very sure that the person with whom he traveled from Portland, Oregon, to Reno, Nevada, is the hijacker of the Northwest Orient plane and that he would recognize all three persons described above if he were to observe them on another occasion.

There is being sent under separate cover a copy of a film taken by the U. S. Air Force cameraman from a chase plane adjacent to the Northwest Boeing 727 during the simulated flight made on January 6, 1972 to determine the reactions of the airplane to the dropping of approximately 235 pounds from the rear steps in the same manner which is believed to have been used by the hijacker.

A review of the film shows the normal flight, together with a depression of the stairway as the load descends on the steps.

The Bureau is requested, if it desires, to review the film and then return it to the Seattle Office, it being the original copy. A copy has been made of the film for the U. S. Air Force per their request, and Northwest Airlines for its review.

There are also enclosed in the same package sequential black and white still photos showing the depression of the rear stairway by the addition of the sled and the reaction of the stairway to the actual departure of the sled, it being noted that the stairway immediately returned to a near closed position when the weight was taken from it.

Re: SEARCH

U.S. AIR FORCE SR-71 AIRCRAFT

The Sacramento Division in a teletype dated 12/3/71 (Ser. 550) advised that Beale AFB, California, had offered, free of charge to the Bureau, use of an SR-71 aircraft to photograph terrain over which the hijacked airplane had flown on its trip to Reno.

This aircraft was described as an extremely sophisticated aerial reconnaissance plane which would photograph a strip 20 miles wide with photographic resolution of detecting objects on the ground 2 feet square. The film strip would then be reviewed by trained and qualified U.S. Air Force personnel.

Due to weather conditions along the route, being inclement at times, the flight never was made.

On 1/10/72 the writer contacted SAC JOHN WILLIAMS, Sacramento, and explained the results of the experiment on 1/6/72. Mr. WILLIAMS was requested to have the Air Force contacted to see if the flight could be made only over the State of Washington and perhaps from the Columbia River to a point some 30 miles north. He was also asked if the Air Force could advise what we could expect of such an over flight in the way of information which would be helpful in the search of this terrain.

In response to the above call, SA [redacted] who has been handling the hijacking case at Sacramento, advised he had contacted Beale AFB and made the request for the over flight and that he would attempt to determine if it could be made, noting that weather conditions still are effective.

b6
b7C

Copies of the revised map of the area to be searched were forwarded the night of 1/10/72 to Sacramento.

The attached plot indicates the envelope of possible landing points of the high jacker (HJ). It is based on the following:

- Aircraft position from USAF radar data from McChord AFB furnished by [redacted] b6 b7C
- Probable jump time (0411 GMT) from an analysis of the recorded communication from the flight relative to the cabin pressure fluctuation. Flight tests conducted on January 6 confirmed that the pressure fluctuation almost certainly occurred at the time the HJ left the airplane.
- Wind information from 10,000' MSL to the ground as determined by [redacted] b6 b7C
- Human body trajectories from data furnished by The Boeing Company (free-fall) and [redacted] who is an expert parachutist.
- Time correlation from the above USAF radar information and from the NWA communications network tape recording.
- Airplane airspeed and altitude from the airplane's flight recorder.

The plot is explained as follows:

1. The heavy dashed line C-D-E-S defines the airplane's probable ground track.
2. Line G-I-J-K defines the westernmost, and Line L-M-N-O the easternmost probable airplane ground tracks based on the stated position tolerance of ± 1.5 nautical mile of the USAF radar plot.
3. Lines A-B, H-P, and O-R are the average wind vectors between 10,000' MSL and the ground, and are the lines parallel to which the HJ would drift after the parachute had opened.
4. Line H-S-T defines the northernmost (earliest) points over which the HJ probably left the airplane. Line K-F-O defines the southernmost (latest) points over which the HJ probably left the airplane. The north-south span of possible jump positions is a product of the radar position tolerance of ± 1.5 mile, and the possible communication time determination tolerance of ± 1 minute.
5. The area within the boundary defined by Points H-P-Q-R-O-K-J-I-H marks the extreme limits of probable landing points based on the above tolerances. That is, assuming the highest probable degree of inaccuracy in aircraft position, jump time, wind vector, etc., all probable HJ landing points would lie within the area defined by this line.
6. If it is assumed aircraft position, jump time, wind vector, and other inputs used are all accurate (without allowance for the above stated tolerances):
 - a. The HJ's landing point would be at Point A if his 'chute did not open, or if he opened it so soon that the high speed caused 'chute damage that resulted in the equivalent of a free-fall to the ground. (The horizontal body trajectory due to

it being at the same speed as the airplane at the moment of exit, has been ignored since it would be a maximum of 2600' along the airplane's track if the HJ free-fell all the way to the ground in the "least drag" (tucked) position.)

- b. If the 'chute was opened without damage immediately after the HJ left the airplane, he would drift with the wind along Line A-B and would land at Point B. The more expert he was, the longer he would probably free-fall (to limit his drift with the wind). The lowest probable altitude to which he would free-fall is 2500' MSL. If he free-fell to 2500' MSL, his landing would be at Point U.

Based on the above, the most favorable search areas, listed in their order of priority, would be as follows:

- At Point A.
- Along Line A-B, favoring the segment between U and B.
- South of Line A-B.
- North of Line A-B.

In addition to the above, the following are pertinent:

- The landing point is more likely to be south of Line A-B, and it is more likely to be in the northwest portion of area A-B-R-O-K-J-A than in the southeast portion thereof.
- It is substantially less likely that the landing point is north of Line A-B. If it is, the most probable point is south of the Lewis River, and in the southwest portion of the area defined by Points A-B-I-J-A.
- It seems highly unlikely-though possible-that the landing point is north of the Lewis River, but if it is, it is more likely to be in the southwest portion of the area defined by Points Q-M-V-I-H-P-Q.

If there are any questions relative to the above, they should be referred to the undersigned.

Based upon maps received this date at Longview RA pin pointing a search area where the hi jacker could have landed and anticipating a walking search to be conducted in the near future in extremely wooded and somewhat hazardous terrain the following suggestions are being made.

Once the search date is fixed this matter be made a Special with the four California offices, Portland and Seattle to furnish four or five agents to participate in the search on a volunteer basis. The voluntary aspect is being emphasized in view of the terrain to be searched and the uncomfortable conditions which will undoubtedly be experienced by the searching personnel.

It is recommended that volunteers be sought from individuals who have some, and preferably extensive, experience in the use of a compass and hiking and camping experience and who are physically qualified to spend a period of time in a densely wooded area on what is essentially a problem similar to a military field exercise.

It is further recommended that the agent personnel assigned be cognizant of the fact that once the operation starts they will be required to remain overnight in their assigned searching areas rather than retracing areas covered to go to and from a base camp.

A list of recommended items to be secured for logistic support of this special is being prepared by the writer the majority of which can be secured from the Army or the Navy at little or no cost to the Bureau.

Aerial photographs of the search area as set forth by the map of [redacted] plus terrain maps are presently being secured in order that the search area may be properly divided for maximum coverage by searching agents.

It is also recommended that this search be a completely Bureau operation involving no outside agencies so as to limit the amount of publicity which is generated.

It is felt that the prime and secondary search areas, while in rough terrain, can be adequately searched by a small, select group of dedicated personnel who are doing it voluntarily and the search will either find the hijacker or lead to the conclusion that the area pinpointed by all available technical data has been completely combed for traces of the subject.

List you gave me originally re agents from Seattle as follows:

[redacted] Manning, [redacted] Webber, [redacted]
[redacted] Dyer, [redacted]

b6
b7C

It is felt to insure that [redacted] be able to complete all his work prior to transfer on 3/29/72 that he be deleted from list.

Also [redacted] has stated that he does not wish to volunteer and will go on search only if assigned. He asked that this be brought to your attention.

You also stated 4 agents from Portland
2 agent from Butte
2 agents from Sacramento
2 agents from San Francisco

When word is passed to start search and agents in other offices are advised it is requested that they furnish the Seattle office with their time of arrival and flight at Portland airport so that steps may be taken to pick them up and transport them to Kelso.

Further it is requested that the agents arrive one day before search in order than they may be adequately briefed on the search and be able to acquaint themselves with the maps and terrain.

It is suggested that the agents assigned for the search be advised of requirement of gloves and water proof shoes and sufficient changes of clothing to insure their comfort.

On 1/11/72 SA [] Olympia RA, was furnished with a copy of the map supplied by [] and contact was made with the Department of Natural Resources, Olympia. It was determined that the entire area outlined by [] was the subject of an aerial survey in 1968. Approximately 30 photographs give complete coverage of the area in question and are sold at \$1.25 per photo. Further SA [] is securing, in addition to the photos, detailed maps made from the photos which can be used in conjunction with the photos for complete familiarization with the search area as it existed in 1968. It was pointed out by the Bureau of Natural Resources that there should be no major radical changes in the area since the last fly over. SA [] was advised to purchase the photographs and it is felt the expenditure of the money for the photos and maps will not exceed \$50 and in view of the magnitude and importance of the search is a legitimate expenditure of Bureau funds.

b6
b7C

The above mentioned maps are being sent to the Longview RA this date.

In the event it is deemed advisable to make a fly over the prime search area set out by [] for a general view of the terrain prior to a ground search [] at Longview, Washington, [] and extremely familiar with the area of the search, is available on an hourly or daily rental basis. It is felt that such a fly over would be advantageous for general layout information on the area and the cost of such service would not exceed \$50 per hour which sum could probably be negotiated to a lower amount on a daily basis.

b6
b7C

Facilities are available at the Longview Post Office for mounting the photographs and maps in proper sequence to enable personnel to be properly briefed on general terrain features and prime search area and the civil service examining room can be made available for such briefing.

It is to be noted that in the event interpretation of the above mentioned photographs in stereo is necessary personnel at the Battleground District office of the Department of Natural Resources are available with sufficient photo copies to perform this task.

Suggested items for search

Compass for each man involved in the search - can probably be secured on loan basis at Ft. Lewis. /p

Rain gear consisting of hooded jacket and rain pants for each man - can probably be secured from Ft. Lewis on loan for each man on search. If not available there can be secured from US Navy at Bremerton.

Rations - K and C rations with heat elements p can be secured at cost or possibly free of charge from Ft. Lewis.

Field packs - it is felt each man involved in search should have at least one half of the regular field pack to carry rations, and other essential items. Can probably be borrowed from Ft. Lewis.

Each man on search should have a handi talki radio in order to insure proper communications and to assist in event individual becomes lost in wooded area.

Squad whistle for each man in search party in order to facilitate in locating others in party and in event searchers become lost or isolated. Can be secured from Ft. Lewis, or purchased commercially.

Base radio capable of reaching all handi talki units to be set up in trailer base camp.

Each searcher to carry two cans of pressurized paint to slightly mark their paths on trees to insure full coverage of designated search area. Can be purchased commercially or through a paint surplus house in Seattle.

Each searcher to carry supply of evidence tape in event package of money found - procedure will be to leave in original position until another agent can arrive at scene to witness finding and bundling as evidence. Area in which evidence found is to be properly marked for later survey to pin point location of find.

One 50 foot length of rope for each two agents involved in the search. Can probably be secured from Ft. Lewis.

5 grappling hooks to be used with rope (or possibly with rope attached) to be used for scaling cliff areas.

1 flare gun and box of red, green and white flares - probably can be secured at Ft. Lewis.

5 Mile ray lamps with replacement batteries

Each agent to have a flashlight with supply of extra batteries.

Each searching agent to have minor medical supplies such as band aids etc.

In event a trailer is used as a base of operations for the search operation a completely mobile telephone installation could be made in the trailer on one week of notice to the phone company (time element could be lowered to possibly three or four days) with the trailer to be left at the mobile shop, 906 New York Avenue, Longview for the better part of one day for the installation.

Mechanically we would need a 12 volt car battery in good or new operating condition as a source of power.

The mobile unit would have one or more channels depending upon the area we worked in in order to insure that we could get to a mobile operator to place our call to any number.

Cost - one channel \$32 per month and for each additional channel \$3 per month. Possibility of having to use 3 or 4 channels exists in order to insure ability to reach a mobile operator at some location such as Longview, Portland or Hood River, Oregon.

[redacted] advised using the car battery - 12 volt - in good condition would give us indefinite service since the drain on the battery is not great if the phone is not actually in use.

[redacted] Washington, advised that on November 24, 1971, shortly after 5:00 PM, he observed a small metallic colored airplane circling low over the general area of his home. He described the plane as powerful, noisy, tail dragger, two seater, and with a large red light on the tail. He added that the plane was low enough to the ground and close enough to him that he could see one person in the plane who he stated was a male. He stated that [redacted] told him the plane had been circling in this area for a short period of time prior to 5:00 PM. He added that he [redacted] left their house for a short period of time and returned shortly after 8:00 PM and that the small plane was again circling in the general area near his house. He stated that he could tell it was the same plane by the noise it made and the large red tail light.

He stated that the last time he saw the plane was a little after 8:00 PM when the pilot turned on the landing light and appeared to be making a landing. He did not see the plane land. [redacted] stated that he knows the time was a little after 8:00 PM because he had hurried home to see a television show which started at 8:00 PM and that the show had already started. He stated he could not recall the name of the show because he had directed his attention to the airplane which had been circling his house. He stated that he was aggravated by the plane circling low over his house and that is why he can recall the details so clearly.

Re: SEARCH AREA

On 1/10/72 after having received the new plotting of the search area, prepared by [redacted] the writer telephonically contacted [redacted] at Northwest Airlines, Minneapolis.

b6
b7C

[redacted] advised that his computations based on the results of the experimental flight on 1/6/72, coupled with updated information furnished by [redacted] of the U.S. Air Force at McChord AFB, he had prepared a revised plotting of the course of the aircraft as well as a probable jump area.

b6
b7C

A memo prepared by [redacted] as well as a map which he also had prepared, had been received and during the telephone conversation [redacted] advised that in his judgment, the best possible spot to search for the subject would be at Point A and proceeding from there to Point B on the map. [redacted] memo adequately explains the lines drawn on the map and are therefore not further being explained.

b6
b7C

[redacted] said he feels that the hijacker is more apt to be found south of line A & B than north of the line and more apt to be in the western part of the possible area than in the eastern part.

b6
b7C

As a result of talking with [redacted] the writer drew arc's emanating from Point A down to a point on line G thru K. The arc's were extended along the lines A-B and down to the same aforementioned line G-K. It was his feeling that this would be the most fruitful area.

b6
b7C

The next choice would be a continuation of the arc's to the north of line A-B also to line G thru K.

The arc's drawn on the southern portion from lines A-B are in solid felt marker pen and the ones [redacted] above are in a dotted arc.

SUBJECT: NORJAK

DATE: 1/12/72

On 1/12/72 I called ASAC ROSACK at Sacramento. I told him we were temporarily stymied in our search of the area as to where the hijacker could have possibly jumped pending decisions from them as to whether the photo reconnaissance plane was going to photograph the area and read the photos for us before we tried to do a foot search.

After checking he said they were going to do it; they had the map of the area and the first good day when the light was right, they would do it. It would not take long after that that the photos could be studied and analysed, (he thought it would be only a few days that we would have the results.) We will be advised.

I called the Bureau and talked to HENRY SHUTZ. I told him that the SAC had wanted him to know the reason we had not come in with a request in connection with a terrain search of the suspect drop area, was that we felt it would be well to have an aerial reconnaissance. I furnished him the information set out above. He said that he understood and that it was no problem insofar as he was concerned.
